(incorporated in the Cayman Islands with limited liability)

(Stock Code: 8188)

FIRST QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 MARCH 2021

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

*This announcement, for which the directors (the “**Directors**”, each a “**Director**”) of GME Group Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended 31 March 2021

1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands on 18 January 2016, as an exempted company with limited liability under the Companies Law, Cap. 22 of the Cayman Islands. The registered office and principal place of business of the Company in Hong Kong are located at 4th Floor, Harbour Place, 103 South Church Street, P.O. Box 10240, Grand Cayman KY1-1002, Cayman Islands and Room 1001-2, 10/F, 148 Electric Road, Hong Kong, respectively.

The Company is an investment holding company and the Group is principally engaged in the provision of underground construction services in Hong Kong.

Mr. Chuang Wei Chu and Mr. Chuang Chun Ngok Boris, both of whom are also executive Directors, and their family members, Ms. To Yin Ping (the spouse of Mr. Chuang Wei Chu) and Ms. Chuang Yau Ka, entered into an acting in concert deed dated 21 March 2016 (the “**Acting in Concert Deed**”) as the controlling shareholders of the Company (the “**Controlling Shareholders**”). The Controlling Shareholders have agreed to consolidate their respective interests in the Company and to vote on any resolution to be passed at any shareholders’ meeting of the Company in an unanimous manner. Each of Mr. Chuang Chun Ngok Boris, Mr. Chuang Wei Chu, Ms. To Yin Ping and Ms. Chuang Yau Ka is deemed to be interested in all the shares of the Company (“**Shares**”, each a “**Share**”) held by them in aggregate by virtue of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) (the “**SFO**”). Mr. Chuang Chun Ngok Boris is the son of Mr. Chuang Wei Chu and Ms. To Yin Ping and the brother of Ms. Chuang Yau Ka.

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements of the Group for the three months ended 31 March 2021 (the “**Unaudited Condensed Consolidated Financial Statements**”) have been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”), Hong Kong Accounting Standards (“**HKAS**”) and Interpretations (hereinafter collectively referred to as the “**HKFRS**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and the applicable disclosures required by the GEM Listing Rules.

The Unaudited Condensed Consolidated Financial Statements do not include all of the information and disclosures required in the annual consolidated financial statements and hence should be read in conjunction with the consolidated financial statements of the Group for the year ended 31 December 2020 (the “**2020 Consolidated Financial Statements**”), which have been prepared in accordance with HKFRS and the disclosure requirements of the Hong Kong Companies Ordinance (Chapter 622 of the Laws of Hong Kong).

The Unaudited Condensed Consolidated Financial Statements have not been audited by the Company’s auditor, but have been reviewed by the audit committee of the Company (“**Audit Committee**”).

The Unaudited Condensed Consolidated Financial Statements have been prepared under the historical cost basis.

The Unaudited Condensed Consolidated Financial Statements are presented in Hong Kong Dollars (“HK\$”), which is also the functional currency of the Company, and all values are rounded to the nearest thousands, except when otherwise indicated.

The accounting policies applied and the method of computation used in the preparation of the Unaudited Condensed Consolidated Financial Statements are consistent with those adopted in the preparation of the 2020 Consolidated Financial Statements.

For the purpose of preparing and presenting the financial information of the Unaudited Condensed Consolidated Financial Statements, the Group has consistently adopted HKFRS issued by HKICPA which are effective for the Group’s financial year beginning on 1 January 2021. The Group has not early applied the new and revised HKFRS that have been issued by HKICPA but are yet to be effective.

3. SEGMENT INFORMATION

Operating segments

The Group was principally engaged in the provision of underground construction services in Hong Kong. Information reported to the Group’s chief operating decision maker, for the purpose of resources allocation and performance assessment, focuses on the operating results of the Group as a whole, as the Group’s resources are integrated and no discrete operating segment financial information is available. Accordingly, no operating segment information is presented.

Geographical information

All of the Group’s revenue was derived from Hong Kong, based on the location of the customers, and all of its non-current assets were located in Hong Kong, based on the location of assets. Therefore, no geographical information is presented.

Information about major customers

Revenue attributed from customers that accounted for 10% or more of the Group’s revenue during the Reporting Period is as follows:

	Three months ended

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is an established subcontractor engaged in civil engineering works and operating solely in Hong Kong. The Group is principally engaged in the provision of underground construction services and mainly serves main contractors in public sector infrastructure projects. Public sector projects refer to the projects in which the main contractors are employed by the Government of the Hong Kong Special Administrative Region (the “**Hong Kong Government**”), its statutory bodies or statutory corporations. The Group has also been involved in some private sector projects, which covered all other types of engagements.

The Group provides underground construction services, in particular, tunnel construction services (including excavation, shotcreting, shutter design and fabrication, tunnel lining services, shafts, advanced and structural works) and utility construction (mainly the construction and refurbishment of underground public utility works such as road and drainage works) and others (mainly structural works and construction of service buildings and support structure). The Group also provides programme design, costing and management for underground construction services. As a result, the Group works routinely with its key clients in pre-tenders for various underground construction projects.

Since 2014, the Group has been focusing on the development of a complete suite of tunnel construction services, which has laid a solid foundation for the Group’s growth and a strong advantage in securing contracts. The Group is constantly evaluating opportunities within the underground construction industry and seeking profitable areas in which it can develop, broaden or commence operation. Other than tunnel works, the Group has also participated in earthworks, bridge works and construction of service buildings during the Reporting Period. The Group considers that diversification is necessary under the current market condition, and continues to explore opportunity in other fields of the construction industry. As at the date of this announcement, the Group has submitted certain number of tenders to main contractors, the results of which are still pending.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group is reliant on the availability of public sector civil engineering projects in Hong Kong which by their nature are procured by a limited number of main contractors. Due to the fact that the civil engineering projects are non-recurring in nature, there is no guarantee that the Group will be able to secure new business from past or existing customers on a recurring basis. Accordingly, the number and scale of projects, and the amount of revenue from the public sector projects may vary from period to period, which may make it difficult for the Group to forecast the volume of future businesses and the amount of revenue.

The Group operates solely in Hong Kong and derived all its income in Hong Kong during the Reporting Period. Accordingly, the Group's business, financial results and prospects are affected by policies of the Hong Kong Government, political environment, economic and legal development in Hong Kong. The budgeting and funding approval process on public infrastructure and construction projects may be lengthened and the expected timetable of projects may be delayed. The Hong Kong Government's policy and public spending patterns on the civil engineering construction industry may also affect the availability of construction projects in Hong Kong.

The Group's historical results may not be indicative of its future performance, which may vary from period to period in response to a variety of factors beyond the Group's control, including general economic conditions, regulations pertaining to the underground construction industry in Hong Kong and the ability to secure new business in the future. Besides, adverse weather conditions, natural disasters, potential wars, terrorist attacks, riots, epidemics, pandemics (such as coronavirus disease ("COVID-19")) and other disasters which are beyond the Group's control may reduce the number of workdays and hinder the Group's operations. COVID-19 had no significant adverse effect on the Group during the Reporting Period.

OUTLOOK OF TUNNEL AND CONSTRUCTION INDUSTRY IN HONG KONG

It is expected that there will be continuous demand for tunnel construction services in Hong Kong given that the construction works at Central Kowloon Route, Tseung Kwan O-Lam Tin Tunnel and the Three-runway System of Hong Kong International Airport are gearing up. As a result, the Group will continue to focus on growing its tunnel construction services business and expects this to be its major growth driver and long term sustainable source of revenue. The growth in tunnel construction industry will mainly be supported by several major infrastructure projects including Tseung Kwan O-Lam Tin Tunnel, Central Kowloon Route, Sha Tin Cavern Tunnel, Cha Kwo Ling Tunnel and the Three-runway System of Hong Kong International Airport.

In respect of the contribution of the Central Kowloon Route, the Legislative Council of the Hong Kong Special Administrative Region (the "**Legco**") had approved the funding of approximately HK\$42.3 billion on 20 October 2017. As at the date of this announcement, the Highways Department of the Hong Kong Government has awarded seven construction contracts of Central Kowloon Route to the main contractors with a total value of approximately HK\$28.9 billion, which included the construction works of (i) the shaft at Ho Man Tin; (ii) the tunnels at Kai Tak East and West; (iii) the tunnels at Yau Ma Tei East and West; (iv) the Central Tunnel; and (v) buildings, electrical and mechanical works.

The finance committee of Legco approved the funding of HK\$16.0 billion for the construction of Trunk Road T2 and Cha Kwo Ling Tunnel on 25 October 2019. This construction will connect the Central Kowloon Route and Tseung Kwan O-Lam Tin Tunnel to form Route 6 as an East-west Express Link between West Kowloon and Tseung Kwan O. The Civil Engineering and Development Department of the Hong Kong Government signed a works contract with a main contractor on 6 November 2019 for the design and construction of the trunk road with 3.1 kilometres in the form of tunnels, two ventilation buildings at the two ends of the trunk road, and associated works. The total cost of the contract is about HK\$10.9 billion. The whole project is scheduled for completion in 2026.

The Airport Authority Hong Kong had awarded two major construction contracts on (i) tunnels and related works for an automatic people mover and baggage handling system; and (ii) expansion works of Terminal 2 at Hong Kong International Airport to a main contractor with the total contract sum of approximately HK\$7.2 billion and HK\$12.9 billion, respectively. Such construction works form major parts of the Three-runway System of Hong Kong International Airport.

The 2021-22 budget speech by the financial secretary of the Hong Kong Government on 24 February 2021 has mentioned that the Hong Kong Government will continue to invest in infrastructure. The annual capital work expenditure will exceed HK\$100 billion in the coming years. The annual total construction output will increase to around HK\$300 billion.

The Group remains hopeful that these public infrastructure projects will come on stream in the foreseeable future. The Group is one of the selected few subcontractors experienced in tunnel construction in Hong Kong and is well prepared to capitalise on the opportunities from these public infrastructure projects.

FINANCIAL REVIEW

Revenue

The Group's revenue increased from approximately HK\$26,634,000 for the three months ended 31 March 2020 to approximately HK\$50,264,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$23,630,000 or 88.7%. Such increase in revenue was mainly attributable to the combined effects of (i) an increase in revenue generated from public sector projects – tunnel construction services from approximately HK\$8,974,000 for the three months ended 31 March 2020 to approximately HK\$22,518,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$13,544,000 or 150.9%; (ii) an increase in revenue generated from public sector projects – utility construction services and others from approximately HK\$15,982,000 for the three months ended 31 March 2020 to approximately HK\$24,837,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$8,855,000 or 55.4%; and (iii) an increase in revenue generated from private sector projects from approximately HK\$1,678,000 for the three months ended 31 March 2020 to approximately HK\$2,909,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$1,231,000 or 73.4%.

Cost of services

The Group's cost of services mainly consisted of (i) staff costs; (ii) rental of plant and machinery; (iii) construction materials and supplies; (iv) depreciation charges; (v) subcontracting costs; and (vi) other expenses.

The Group's cost of services increased from approximately HK\$20,498,000 for the three months ended 31 March 2020 to approximately HK\$43,469,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$22,971,000 or 112.1%. Such increase was mainly due to (i) an increase in the construction materials and supplies from approximately HK\$2,424,000 for the three months ended 31 March 2020 to approximately HK\$14,626,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$12,202,000 or 503.4%; (ii) an increase in the subcontracting costs from approximately HK\$2,275,000 for the three months ended 31 March 2020 to approximately HK\$5,449,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$3,174,000 or 139.5%; and (iii) an increase in the staff costs from approximately HK\$12,727,000 for the three months ended 31 March 2020 to approximately HK\$19,387,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$6,660,000 or 52.3%. The purchase arrangement of construction materials and supplies and engagement of the subcontractors depend on the terms of the contracts, which may vary on a project-by-project basis. During the Reporting Period, the Group participated in more structural works projects, which increased the total number of workers' workdays and relied more heavily on construction materials and supplies.

Gross profit and gross profit margin

The Group's gross profit increased from approximately HK\$6,136,000 for the three months ended 31 March 2020 to approximately HK\$6,795,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$659,000 or 10.7%. The gross profit margin was approximately 13.5% for the three months ended 31 March 2021 (for the three months ended 31 March 2020: approximately 23.0%). The increase in gross profit was due to the increase in revenue during the Reporting Period. The decrease in gross profit margin was mainly due to the notices of claims of two tunnel construction projects submitted to main contractors yet to be certified and a non-tunnel construction project final account yet to be reconciled with a main contractor.

Other income

The Group's other income was approximately HK\$2,755,000 for the three months ended 31 March 2021 (for the three months ended 31 March 2020: approximately HK\$53,000), which was mainly attributable to the government grants received under the ESS.

During the Reporting Period, GMEHK submitted the request for review of the application results for the wage subsidy from September 2020 to November 2020 under the second tranche of the ESS. On 5 May 2021, the Group received a reply from the ESS processing agent and concluded the payable of the government grant under the second tranche, after deducting the penalty, was approximately HK\$2,314,000.

Administrative expenses

The Group's administrative expenses mainly comprised (i) staff costs and benefits; (ii) Directors' remuneration; (iii) entertainment expenses; (iv) motor vehicles expenses; and (v) professional fees.

The Group's administrative expenses increased from approximately HK\$5,903,000 for the three months ended 31 March 2020 to approximately HK\$6,148,000 for the three months ended 31 March 2021, representing an increase of approximately HK\$245,000 or 4.2%. The staff costs and benefits for the three months ended 31 March 2021 was approximately HK\$1,881,000 (for the three months ended 31 March 2020: approximately HK\$1,650,000), representing an increase of approximately HK\$231,000 or 14.0%. The Directors' remuneration was approximately HK\$812,000 for the three months ended 31 March 2021 (for the three months ended 31 March 2020: approximately HK\$812,000).

Finance costs

The Group's finance costs comprised interest expenses on lease liabilities during the Reporting Period.

The Group's finance costs increased from approximately HK\$46,000 for the three months ended 31 March 2020 to approximately HK\$49,000 for the three months ended 31 March 2021. Such increase was due to the increase in interest expenses on the lease liabilities of approximately HK\$23,000, which offset the decrease in interest expenses on the revolving term loans of HK\$20,000 during the Reporting Period.

Income tax

The Group generated income only in Hong Kong and was subject only to Hong Kong profits tax.

The income tax expense for the three months ended 31 March 2021 mainly resulted from the estimated assessable profit of GMEHK and the movement of accelerated tax depreciation during the Reporting Period.

Profit and total comprehensive income attributable to the owners of the Company (the “Net Profit”)

The Group’s Net Profit for the three months ended 31 March 2021 was approximately HK\$3,068,000 (for the three months ended 31 March 2020: approximately HK\$17,000). Such increase mainly resulted from (i) the increase in revenue and gross profit during the Reporting Period; and (ii) the government grants of the wages subsidy for GMEHK, an indirect wholly-owned subsidiary of the Company, under the ESS of the Anti-epidemic Fund launched by the Hong Kong Government.

Dividend

The Board did not recommend the payment of any dividend for the three months ended 31 March 2021 (for the three months ended 31 March 2020: nil).

Contingent liabilities

As at 31 March 2021, there were a number of labour claims lodged against the Group arising from the ordinary course of its civil engineering construction business. No specific claim amount has been specified in the applications of these claims. It is anticipated that the outflow of resources required in settling these claims, if any, was remote as these claims are usually covered by insurance maintained by relevant main contractors. Therefore, the ultimate liability under these claims would not have a material adverse impact on the financial position or performance of the Group and no provision for the contingent liabilities in respect of the litigations is necessary.

As at 31 March 2021, the Group has given guarantee to insurance companies in respect of surety bonds issued by such insurance companies in favour of the Group’s customers at an amount of approximately HK\$9,169,000 (as at 31 December 2020: approximately HK\$9,169,000) in relation to two public construction contracts of the Group (as at 31 December 2020: two) in the ordinary course of business. The surety bonds as at 31 March 2021 are expected to be released in accordance with the terms of the respective construction contracts. Save for the guarantee given on the surety bonds, the Group has no other material contingent liabilities.

Foreign currency exposure
